

## Press Release:

### Visit voipGATE at IP Convergence in Paris, Booth H38!

**Luxembourg, October 12<sup>th</sup> 2010** – voipGATE is pleased to announce its presence at the 10<sup>th</sup> edition of the high profile IP Convergence event held from October 19<sup>th</sup> to 21<sup>st</sup>, Porte de Versailles in Paris (booth H38).

voipGATE will take this opportunity to display new products, organize live demonstrations and explain the new trends within the VoIP industry ([www.voipgate.com](http://www.voipgate.com)). Don't miss this chance to meet the industry experts and raise your interest.

IP Convergence is the major high profile show between technologies and firms, during which the Telecom and Media players are all converging to meet and discuss current trends and innovations in the high tech, environment and information technology sectors. 250 companies, from telecom operators, equipment manufacturers, IT constructors to integrators will all be gathered on a 20,000 m<sup>2</sup> surface exposition with 15,000 visitors expected this year.

voipGATE, the Luxembourg-based Voice over Internet operator & provider, will take part in this event for the third time. "We view the French Market as an essential one to our future development. Our presence this year and for the third time in a row in Paris confirms our position as a key player in terms of SIP Operator. Thanks to our international scope, our clients benefit from tailored solutions building up on our broad range of expertise." Comments Jorge Marques, COO of voipGATE.

voipGATE is also pleased to welcome Telnic, the .TEL's Registry Operator, to the event as a technology partner who will also present the workshop ".TEL: the missing link enabling easy & state-of-the-art routing of communication" during the event. On this occasion Henri Asseily, Telnic CTO and Chief Strategist, will discuss the exciting opportunities linked to the .TEL for VoIP and its relationship with other exciting IP based technologies. Join voipGATE and Telnic on Wednesday, October 20th at 3.15 pm (Room 3) and learn about the numerous features and benefits of .TEL names and what this means for VoIP industry leaders such as voipGATE.

Discover more about voipGATE's products and services during the IP Convergence in Paris at Booth H38, or go to [www.voipgate.com](http://www.voipgate.com)

**About voipGATE:**

Founded in 2004 and part of DCL Group, voipGATE operates locally and worldwide as one of the unique and leading Operators in Voice over IP by offering telecommunication services and local phone numbers across the world. An Accredited Technological Partner of the newly launched domain name extension .TEL, voipGATE has strong partnerships with PBX key brands (i.e: Siemens, Avaya, Cisco, Nec-Philips, Funkwerk, Amiritel...) and various mobile devices (i.e: Nokia, Grandstream...), to ensure and offer its customers both flexibility and ease of use.

**About Telnic Limited:**

Founded in 2000, Telnic Limited is the UK-based Registry Operator and Sponsoring Organization for the new .tel sponsored top level domain (sTLD), which launched in March 2009 and which has over 275,000 .tel names registered. In the past year, Telnic has won an inaugural UK IT Industry Award as well as an InfoCommerce Group Models of Excellence Award and a European Seal of Excellence from the EMF at CeBIT. Telnic's backend registry services are provided by NeuStar. See <http://about.telnic.tel/>
